| Warning

Warning

- High chance of developing bad Habits
- Never do shadow boxing when you're cold — that's rolling out the red carpet for injury.

To Avoid that

- Focus on good form and technique all the time.
- Don't get distracted by anything (thought, movement of anyone or what so ever)

| Footwork

Foundation of Building

- Keep Feet Apart all the time .

- **Don't Move on heel**, always on toe in below image you can see moving back from this heel position you can't push back yourself from this position

zz_20251206151912_3600.50_you_can't move on heel back.png

- Always on toe, makes moving around quick

zz_20251206152148_3600.50_moving on toe.png

- When you're out of range , you plant you're feet on heel but when moving always on toe

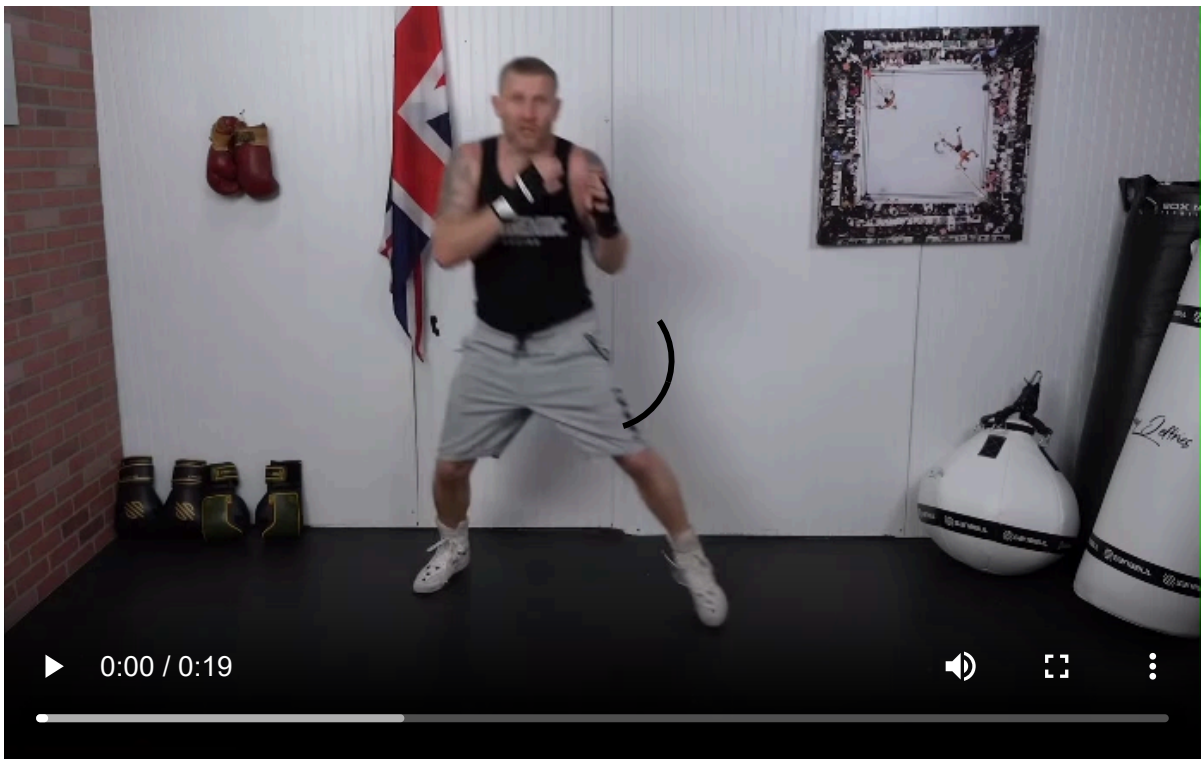

zz_20251206152403_3600.50_always_on_toe.png

- If you're moving left move left leg first and vice versa for right otherwise leg will be crossed

- For more advance you can step and punch when my foot lands my punch lands

| Lead Hook

⚠ This is not good form for Lead Hook

✓ Now it the time

- Need to rotation with feet & elbow should be 90degree

- there is two way for lead hook (the both give you the Same Position)
 - cross & hook
 - slip & hook

🔥 It's great debate when we throw in the hook do we have our thumb up or have it towards us
